

Property & Building Report

Hello everyone,
Greetings, I hope everyone survived another winter and is looking forward to another summer on the water, although with current fuel prices I know I won't be circumnavigating Georgian bay again this year - probably stay closer to home.

For my 3rd term on the board/2022 boating season I will be returning as the property committee Director, after taking a break and being on gas dock the last couple covid summers.

Property and grounds have quite a few projects around the club that need to be completed and we will be looking for a lot of volunteers to help out; some volunteers to lead the projects and some for their expertise and muscle.

One of the projects we're going to kick off the season with is a result of the water levels dropping. We have a bunch of docks that need to be adjusted, which will be completed on the last weekend of May.

If you can offer assistance for any project around the club, please let me know. You can email me at treeguy_01@hotmail.com.

See you on the water.

Chris Haslam
Property & Building Director

GATE SECURITY!

Please remember to shut and lock the club gates. In the past few weeks, the gates have been left open or unlocked several times.

Reminder about power outages:

The North and South card gates will not open during a power outage. However, the latches on the big upper gate (by the garage) and all the man-gates are electromagnetic. Should the power fail, you can push open the upper-level gate to drive out or push open any of the man-gates to walk out.

Have YOU volunteered yet?

Volunteering is an important part of your membership responsibilities.

Volunteers are needed in all areas of the club. Please share your skills and your time. Contact any of the directors to find out how you can help.

We Need Help on Launch Day!

We especially need volunteers to help on the social committee on launch day, in addition to many events throughout the year.

If you can help on launch day, before or after your boat goes in the water, please contact:
